## CUSTOM Pg 1 OPTIONS

### CHASSIS

Chassis options from Ford, Chevy, Ram, International, Freightliner & Kenworth. All types.

### MODULE

We can remount, repair & refurbish most brands of ambulance modules.

### ELECTRICAL

Electrical components & upgraded hardwired systems with printed circuit boards or Multiplex.

### HARDWARE

Door handles, latches, grab bars, electric steps, seat cushions, trim & accessories.

## THERE IS NO SUBSTITUTE FOR QUALITY!

Medwerks, a division of Crossroads Ambulance Sales & Service, LLC of Indiana, specializes in ambulance remounting and modification. All of our remount work is completed by highly skilled professionals with a combined experience of over 150 years. All QVM, FMVSS and NFPA guidelines and regulations are followed. Superior workmanship, reliability, and dependability are the qualities you can expect from a Medwerks remount.

## BENEFITS OF REMOUNTING

### COST SAVINGS

Our customers average a 30-50% savings on any full size ambulance remount in comparison to buying a brand new emergency vehicle.

### TIME SAVINGS

Typical lead times are between 90-120 days from receipt of ambulance to be remounted or the new chassis, whichever is the latter. We do stock some chassis which can shorten lead times.

### CUSTOM OPTIONS

We can convert from Type III to Type I and remount onto any brand chassis. Whether you need aftermarket suspension systems, full interior modifications or a complete refurbishing of your current module, we have you covered.

HUNDREDS OF  
REMOUNTS IN **18 STATES**  
AND COUNTING!

## CUSTOM Pg 2 OPTIONS

### SAFETY
